

SACTEM

Society of Acute Care, Trauma & Emergency Medicine
Building Resilient Emergency Response Systems in India

Promoting community preparedness and resilience through structured emergency education and training programs.

Raise awareness among healthcare workers, first responder, police, and the general public by providing emergency knowledge to reduce morbidities before professional help arrives.

This is an initiative to empower doctors and associate healthcare staff to skillfully manage Medical and Trauma Emergencies

MISSION

To improve the quality of acute care, trauma, and emergency medical services in India through education, advocacy, and collaboration, ultimately saving lives and reducing suffering.

VISION

A Country where every person in India has access to high-quality, timely, and affordable acute care, trauma, and emergency medical services delivered by well-trained and dedicated professionals.

WHO WE ARE?

UNITING EXPERTISE, ELEVATING EMERGENCY CARE

SACTEM Foundation is a multidisciplinary body of emergency physicians, trauma specialists, paramedics, nurses, first responders, educators, and public-health professionals. We strive to create a unified, collaborative platform that promotes excellence, innovation, and ethical practice in emergency and trauma care across India.

WHY WE ARE?

IN EMERGENCIES, PREPAREDNESS IS THE STRONGEST MEDICINE

India faces a rising burden of road-traffic trauma, cardiac arrests, medical emergencies, and disaster-related crises.

Delays in skill, awareness, and coordination often cost lives that could be saved

SACTEM Foundation was established to bridge this life-critical gap by:

- Standardizing training & protocols
- Enhancing emergency-response systems
- Empowering communities with life-saving skills
- Supporting research & innovation
- Giving emergency-care professionals a unified voice

WHAT WE DO?

TRAINING TODAY FOR THE EMERGENCIES OF TOMORROW

Conduct hands-on workshops, training programs, and certifications (BLS, ACLS, trauma care, disaster response). Publish research, newsletters, and educational resources to keep professionals updated. Host national conferences, CME programs, expert panels, and symposiums. Run community outreach campaigns on CPR, first aid, road safety, and disaster preparedness. Build bridges between healthcare institutions, first-responders, and academic bodies to strengthen emergency-care networks.

The National Challenge

India faces a growing emergency care burden:

- ✓ Rising road traffic accidents
- ✓ Increasing cardiac emergencies
- ✓ Large-scale public gatherings
- ✓ Disaster vulnerability
- ✓ Limited public emergency preparedness

Millions of lives are at risk due to delayed or inadequate emergency response.

OUR CORE INTERVENTION AREAS

- ✓ Community Emergency Response Training
- ✓ Basic Life Support (BLS) & CPR Certification Programs
- ✓ Disaster Preparedness Initiatives
- ✓ Mass Gathering Emergency Planning
- ✓ Rural & Semi-Urban Emergency Awareness Drives
- ✓ Road Safety Education

Know the PRESIDENT & FOUNDER

Dr. Lokendra Gupta

Dr. Lokendra Gupta is the founder and current President of SACTEM. With deep commitment and foresight, he launched the foundation to transform emergency medical care across India — striving to ensure timely, accessible, and high-quality trauma and emergency services for all.

- Dr Gupta serves as Director and Head of Emergency Medicine & Trauma Care at a major tertiary-care hospital.
- Under his leadership, SACTEM has initiated and driven multiple training, outreach, and public-health programs — with a special focus on equipping medical professionals and communities to act decisively in critical scenarios.

Our journey continues to unite all the Emergency Physicians across India

What We Have Done So Far

Rabies Prevention and Management

SACTEM launched with successful Rabies Awareness Program at Hotel Sky Hilton, attended by many doctors!

Ambulance Meet

The first Ambulance Meet at Medanta Hospital, Lucknow featured a Health Talk & BLS training, with Dr Samir Mishra as Chief Guest and Dr S. S. Tripathi as Guest Speaker.

World Emergency Day

Conducted multiple awareness programs across Lucknow with doctors from top institutes like Hind, Era, and SGPCL. Dr Lokendra led a medical emergency session for 100 bureaucrats.

IACC Varanasi

SACTEM, represented by Dr Lokendra, actively participated in the Advancing Health & Wellness Conference at Taj Ganges, Varanasi, where he was a Guest Speaker.

Excise Office Prayagraj

Medanta Hospital & SACTEM held a Health Talk at Excise Office, Prayagraj, with 100+ staff attending.

Lucknow Bar Association

Medanta Hospital & SACTEM conducted a Health Talk on Medical Emergencies at Lucknow Bar Association, drawing a large audience.

Shock Unveiled

A CME on Septic Shock Management marked a milestone, driving society expansion and a booming membership drive.

Ambulance Meet

The 2nd Ambulance Meet at Medanta Hospital, Lucknow trained 70-80 drivers & technicians on the Golden Hour & CPR. Dr Rajeev Kumar Gupta was the Chief Guest.

Neurological Emergencies

Highlights: Talk by Dr Dinkar Kulshreshtha, first Community Expansion Award, and 120+ members attending the CME.

Ayushman Head Office UP

Medanta Hospital & SACTEM held a Health Talk at Ayushman Head Office, UP, engaging 60-70 staff, led by Dr Lokendra Gupta.

Tourism & Forest Department, Varanasi

Medanta Hospital & SACTEM held a Health Talk & CPR Training on 23rd Aug at Tourism & Forest Dept., Varanasi, for 150+ staff, with Dr Lokendra Gupta as Chief Guest.

Labour Commissioner HO

Medanta Hospital & SACTEM conducted a Health Talk & BLS Training at Labour Commissioner Head Office, Kanpur, led by Dr Lokendra Gupta, with a large staff turnout.

Training Impact So Far

General Public

5,000+ individuals trained in emergency recognition & basic life-saving response

Police & Traffic Personnel

1,000+ frontline responders trained in Golden Hour management

Paramedics & Nursing Staff

2,500+ trained in structured emergency & trauma protocols

Government CHC /District Hospital Doctors

2,000+ trained in acute care & trauma stabilization

We are excited to announce a

partnership (MOU) between the Disaster Medicine Institute (DMI) USA and the Society for Acute Care, Trauma, and Emergency Medicine (SACTEM) in India!

This collaboration unites two stakeholders in emergency response, trauma care, and disaster preparedness to enhance resilience against emergencies and crises. Together, we will:

- Advance research and innovation in disaster medicine
- Provide specialized training and education for healthcare professionals

By combining DMI's expertise in disaster preparedness and SACTEM's leadership in acute and trauma care, we aim to create a more connected, prepared, and informed healthcare community.

Together, we're building a future where every life counts, and every response is impactful. www.disastermedicineinstitute.com & www.sactem.com

Introducing **JACTEM** (*Journal of Acute Care, Trauma & Emergency Medicine*)

The New Academic Voice for Emergency Medicine & Trauma Care

JACTEM is more than a new journal – it marks a meaningful step toward strengthening the academic backbone of emergency and trauma care. Its launch reflects SACTEM's dedication to advancing emergency medical education, supporting high-quality research, and empowering the frontline professionals who save lives every day. It creates a unified space for sharing clinical insights, innovative ideas and real-world experiences. With JACTEM, SACTEM aims to inspire continuous learning and raise the standard of care across the emergency medicine community.

We at SACTEM are excited to unveil JACTEM, our newly launched peer-reviewed journal dedicated to advancing Emergency, Trauma and Acute Care Medicine – nationally and globally. This dynamic platform aims to bring together cutting-edge research, case reports, clinical protocols, simulation & education innovations, public-health and systems-based research, and expert commentary.

What JACTEM Offers

- ✔ Covers a wide range of acute-care specialties including trauma, EMS, resuscitation, neurocritical care, disaster response and more.
- ✔ Ensures high academic standards through a rigorous double-blind peer review process.
- ✔ Supports young researchers with mentorship, simplified submissions and first-publication opportunities.
- ✔ Accepts multiple article types, including research papers, reviews, case reports, guidelines and educational innovations.
